

Erie 2-Chautauqua-Cattaraugus BOCES School Improvement Program

Data Driven Dialogue: Continuing the Conversation

With Laura Lipton, National Consultant, Mira Via LLC.

Developing high standards and accountability for student success requires collaborative problem solving skills and planning with data. In this interactive workshop participants explore and engage in a three-phase Pathways Learning Model to produce collaborative inquiry. All participants need to bring their copy of Data Driven Dialogue: A Facilitator's Guide to Collaborative Inquiry.

PLEASE NOTE: Participants must have attended a Day 1 (Beginning the Conversation) session at any location to attend.

Participants will:

- Use data to focus a group's attention and energy
- Apply a variety of interactive structures to help individuals and groups construct meaning as they interact with data and each other
- Develop strategies for interpreting, analyzing, and applying data to the work of school improvement
- Learn how to design data explorations with quantitative and qualitative data and structure interactive conversations with classroom teachers and those who support them.

DATE: Wednesday, May 21 AND Thursday, May 22, 2008
TIME: 8:30 am—3:00 pm
